Risk Mitigation Plan

Livestock

The horses will arrive from the afternoon of day and date.

They will be transported by their owners or others.

Their properties of origin, owners, descriptions and properties to depart to are as per schedule A (attached).

This information is derived from Horse Health Declarations collected from each Participant prior to entry to the event.

They will be stabled at eg the Nambour Showground Stables (Blocks D and F)
Contact details mobile and fixed phone numbers or radio frequencies

Veterinarian Assistance

During the event the following Vets will be on call:

Vet's name	mobile and fixed phone numbers or radio frequencies
Vet's name	mobile and fixed phone numbers or radio frequencies
Vet's name	mobile and fixed phone numbers or radio frequencies

If they are unable to attend they will arrange a substitute Veterinarian

Communication in the event of emergency

In the event of an emergency, mobile phones will be available from:

- The Organizers location and directions to the location
- PCAQ Personnel location and directions to the location
- Event staff location and directions to the location

The Emergency Disease Watch Hotline in Queensland phone number is 1800 675 888

Parking

Parking for event personnel will be specify the place and state if separated from the Spectators and Competitors and if so, by what meant eg gates, barriers etc.

Due to the nature of the event it is not considered necessary to separate Competitors nor Spectators. (only put this in if it applies).

Isolation of sick or injured livestock

An isolation stable/s will be located the location - eg in the centre of Stable Block E.

Entry/exit point for livestock

A single entry/exit point will be established at the main gate to the Showgrounds.

Hygiene

Wash facilities will be available at strategic places especially where livestock are in attendance. Handlers and other event personnel and competitors will be encouraged to use these effectively.

Contingency Plan

Lockdown

In the event of a lockdown the following will apply:

1. Primary Biosecurity Perimeter

A Primary Biosecurity Perimeter will be set up at (state the location eg in Stable Block E). It will be defined by (state exactly what it is eg coloured tape and signs). Access to this area will be controlled by (state exactly what it will be eg a guard).

2. Horse Movement

All Horse movement will cease other than moving affected animals to the isolation stable/s or as directed by DPI&F or Emergency Personnel.

3. Disease surveillance

During the event Livestock will be under surveillance to assist in the early detection of a possible disease outbreak.

4. Human Movement

Human movement into or out of the Isolation Stables and Primary Biosecurity Area will be strictly limited to Essential Personnel. Strict disinfection and any other Biosecurity measures determined by Emergency Personnel will be enforced.

5. Secondary Biosecurity Perimeter

If necessary the Secondary Biosecurity Perimeter will be set up at (state location eg he Perimeter of the Showground) or as set out by Emergency Personnel.

6. Regulate Horse Movement

A register has been developed to record the following:
- Date of arrival and departure
- Origination and Destination property details (horse health declaration forms)
- Carrier Information
This is kept in the Event Office and will be made available to Emergency Personnel

7. Health Requirements

Emergency Personnel will determine the protocols for movements between Biosecurity Perimeters and any Health Certificates required and the process for issuing them.

8. Event Management

Event personnel will be responsible for the following:
- Access controls including erection of barriers or perimeter markings
- Disinfection if required
- Waste Removal (both during and after the event)
- Vermin and Insect Control
- Removal of deceased animals (by pre-arranged contractor)
