

## Dryden extended horse float- made for large horses

- Dryden brand, Very solid straight load float in great condition, it is very tall and long with an extended area at the front, originally made so a tack box was to go in, however the last owners didn't get around to putting one in.
- Tandem axle with brakes on all wheels (electric brakes) and very easy to tow. It has two sliding windows with fly mesh, so it's perfect to camp in summer or winter.
- Fully enclosed with a canvas at the back which can be rolled up or secured down.
- It has a fiberglass roof with a large tinted window at the front with security bars. Two pop up air vents in the roof above the horses and detachable stallion divider- just slides in and out when needed.
- Has a hardwood floor, which is in pristine condition with non slip rubber flooring. It has been recently serviced and is as good as new.
- We have a 17hh warmblood, and he has heaps of room to spare in this float
- Measurements: 3.3m long, 2.2m high, 1.7 m width.
